

LITERATUR/STUDIEN

Hier finden Sie eine Sammlung an Literatur und Studien rund um die Themen Elektromagnetische Felder, Melatonin Produktion, Schlafstörungen etc.. Diese Auflistung soll Ihnen die Möglichkeit bieten sich selbst ein Bild zu den verschiedenen Themen zu machen. Aber auch der Umfang der bisherigen Forschung dieser Themen sollen zeigen, welchen wissenschaftlichen Stellenwert die Schumann-Frequenz im speziellen und elektromagnetische Felder im Allgemeinen haben.

Diese Sammlung ist keineswegs vollständig und wird von unserem Team regelmäßig ergänzt.
